

Referral Program Works

1. **Refer a Client**

You introduce someone who is interested in buying, selling, or investing in property. This can be done through a simple form as direct message.

2. **We Handle the Process**

Once you refer the client, our team or one of our agents will take over — providing consultation, property tours, negotiations, and finalizing the transaction.

3. **Earn a Commission**

If the deal closes successfully, you receive a **referral commission** — typically a fixed percentage of the agent's total commission (e.g., 10%), depending on the agreement.

4. **Transparent Tracking & Timely Payment**

We ensure every referral is properly tracked and keep you updated throughout the process. Payment is released as soon as the agency commission is paid out or the transaction is officially closed.
